**MOSAICO EURO AFRICANO (COMPANY LIMITED BY GUARANTEE)**  
**NOTES TO THE ANNUAL FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 31 DECEMBER 2024**

**1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Basis of preparation**

These financial statements have been prepared in accordance with the Generally Accepted Accounting Principles in Botswana. The financial statements have been prepared on the historical cost basis adjusted for impairment. The deemed cost of certain assets that were revalued before the adoption of the Standard and for these assets the carrying amount at time of adoption of the Standard is the revalued amount at time of adoption of the standard.

These financial statements are presented in Botswana Pula (P)

**Foreign currency translation**

*Functional currency and presentation currency*

The financial statements are presented in the currency of the primary economic environment in which the entity operates.  
( its functional currency)

*Transactions and balances*

A transaction denominated in foreign currency shall be measured, on initial recognition, in the functional currency by applying to the foreign currency by applying to the foreign currency amount the spot exchange rate between the functional currency and the foreign currency at the date of transaction or where such transaction, is hedged through a forward exchange contract or similar instrument, at the exchange rate specified in such contract or instrument.

Exchange differences arising on the settlement of monetary items or on reporting an entity's monetary items at rates different from those at which they were initially recorded during the reporting period, or reported in previous financial statements, shall be recognised as income or as expenses in the reporting period in which they arise.

**Income Tax**

Income tax expense represents the sum of the tax currently payable in respect of the taxable profit for the year

**NOTES TO THE ANNUAL FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 31 DECEMBER 2024**

**1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**Land and depreciable assets**

Depreciable assets are measured at cost less accumulated depreciation and any impairment losses.

Depreciation is charged so as to allocate the cost of assets over estimated useful lives, using straight line method. Freehold land is not depreciated. The estimated useful lives are equivalent to the period prescribed by Botswana Unified Revenue Services for the computation of capital allowances are

Leasehold property -	25 years
Industrial buildings -	An initial allowance of 25% with the residue over 40 years
Computer equipment-	4 years
Furniture and fittings -	10 years
Motor vehicles -	4 years
Software -	7.5 years
Patents -	10 years
Machinery & equipment-	6.67 years

A depreciable asset is de-recognised when it is disposed of or when no future economic benefit is expected from its use and disposal. The gain or loss on de-recognition is included in the income statement when the asset is de-recognised.

**Impairment of assets**

At each reporting date, financial and non-financial assets are reviewed to determine whether there is any indication that those assets have suffered an impairment loss. If there is an indication of possible impairment, the recoverable amount of any affected asset (or group of assets) is estimated and compared with its carrying amount. If the estimated recoverable amount is lower, the carrying amount is reduced to its estimated recoverable amount, and an impairment loss is recognised immediately in the income statement.

Similarly, at each reporting date, inventories are assessed for impairment by comparing the carrying amount of each item of inventory (or group of similar items) with its selling price less costs to complete and sell. If an item of inventory (or group of similar items) is impaired, its carrying amount is reduced to selling price less costs to complete and sell, and an impairment loss is recognised immediately in the income statement.

If an impairment loss subsequently reverses, the carrying amount of the asset (or group of related assets) is increased to the revised estimate of its recoverable amount (selling price less costs to complete and sell, in the case of inventories), but not in excess of the amount that would have determined had no impairment loss been recognised for the asset (group of related assets) in prior years. A reversal of an impairment loss is recognised immediately in the income statement.

**Investments**

Investments, including investments with control, joint control or significant influence are measured at cost less any accumulated impairment losses.

**MOSAICO EURO AFRICANO (COMPANY LIMITED BY GUARANTEE)**  
**NOTES TO THE ANNUAL FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 31 DECEMBER 2024**

**1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**Investments with control, joint control or significant influence**

A subsidiary company is an entity over which the company has control, being more than 50% of the voting rights of that entity.

An associate is an entity over which the company has significant influence but not control, generally being more than 20% of the voting rights of that entity.

A joint venture is the contractually agreed sharing of control over an economic activity.

A jointly controlled entity is an entity where there is contractually agreed sharing control.

The company does not prepare consolidated financial statements, nor equity account or proportionally consolidate associates and joint ventures.

**Goodwill**

The difference between net assets acquired and the consideration paid is taken to the income statement immediately upon recognition.

**Leases**

Lease payments are recognised in the income statement as an expense when paid or payable. Any finance expense included in the lease installments is recognised separately in the income statement.

**Agricultural produce**

Livestock and growing crops are initially measured at cost. Cost comprises the purchase price of the asset and the cost directly attributable to the biological transformation of livestock and growing crops until the asset reaches full production.

or Subsequent to initial measurement agricultural produce is measured at cost less any accumulated impairment loss.

**Inventories**

Inventories are stated at the taxable value.

**Loans and trade receivables**

Loans and trade receivables are measured at cost less any impairment. Interest income is recognised by applying the effective interest rate, except for short-term receivables when the recognition of interest would be immaterial.

**MOSAICO EURO AFRICANO (COMPANY LIMITED BY GUARANTEE)**  
**NOTES TO THE ANNUAL FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 31 DECEMBER 2024**

**1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**Amounts payable**

An amount payable is a liability which is a present obligation of the entity arising from the past events, the settlement of which is expected to result in an outflow from the entity of resources embodying economic benefits.

This include creditors, accruals, payments received in advance, employee benefits, bank loans and other short-term obligations.

An amount payable shall initially be measured at its cost, which is documented amount agreed between the parties, usually the invoiced amount.

The gain or loss arising from de-recognition of amounts payable shall be determined as the difference between the consideration received for the part de-recognised, if any, and the allocated carrying amount of the item.

**Revenue recognition**

Revenue is measured at the fair value of the consideration received or receivable, net of discounts and sales-related taxes collected on behalf of government authorities.

**Sale of goods**

Revenue from sales of goods is recognised when the goods are delivered and title has passed to the customer.

**Rendering of services**

Revenue from sales a contract to provide services is recognised by reference to the stage of completion of the contract.

**Contruction contract**

Revenue from construction contracts is recognised based on an objective measurement of work completed, which shall be either the accumulated value of invoices raised or the accumulated value of work certified during the reporting period.

**Dividends**

Revenue from dividends is recognised when the company's right to receive payment is established.

**Interest revenue**

Interest revenue is accrued for on a time basis by reference to the principal outstanding and the effective interest rate applicable.

**Government grants**

Government grants are recognised where there is a reasonable assurance that the grant will be received and all attached conditions will be complied with. Where the grant relates to an expense item, it is recognised as income over the period necessary to match the grant on a systematic basis to the cost that is intended to compensate. Where the grant relates to the purchase of an asset , it is recognised as a capital grant in the balancesheet and released to the income statement in equal amounts over the expected useful life of its related asset.

Where the company receives non monetary grant, the asset and the grant are recorded at the fair market value of the underlying asset.

**Borrowing costs**

All borrowing costs are recognised in the income statement in the period in which they are incurred.
